Class Information

Parkwall School YR 2

Topic Big Question

How do we choose materials?

What materials can I find?

What are the properties of this material?

Which material is the odd one out?

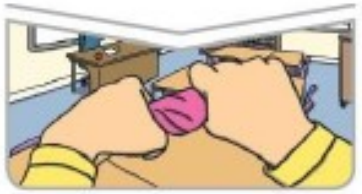

This term, we are being SCIENTISTS. We will learn about materials and their properties.

Vocabulary

hard, soft, stretchy, shiny, dull, rough, smooth, bendy, brick, fabric, elastic, foil, squashing, bending, twisting, stretching, waterproof

Can the material change shape?

What could this material be used for?

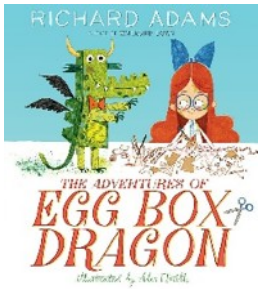

What if everything was flexible?
